

1 Install the app, sign in

iPad · open **kurantakibi.com** in Safari,  → Add to Home Screen

Android · tap the Install button at the top of the page

Then choose **Student** and type the username and password your teacher gave you.

Ask your teacher if you forget your password.

2 Your home page

The green card shows this week's page, your lesson days and your four tasks. Below it are the recitation and your reading count: one lectern lights up after each reading.

If a page says Read again, read it once more and send it again.

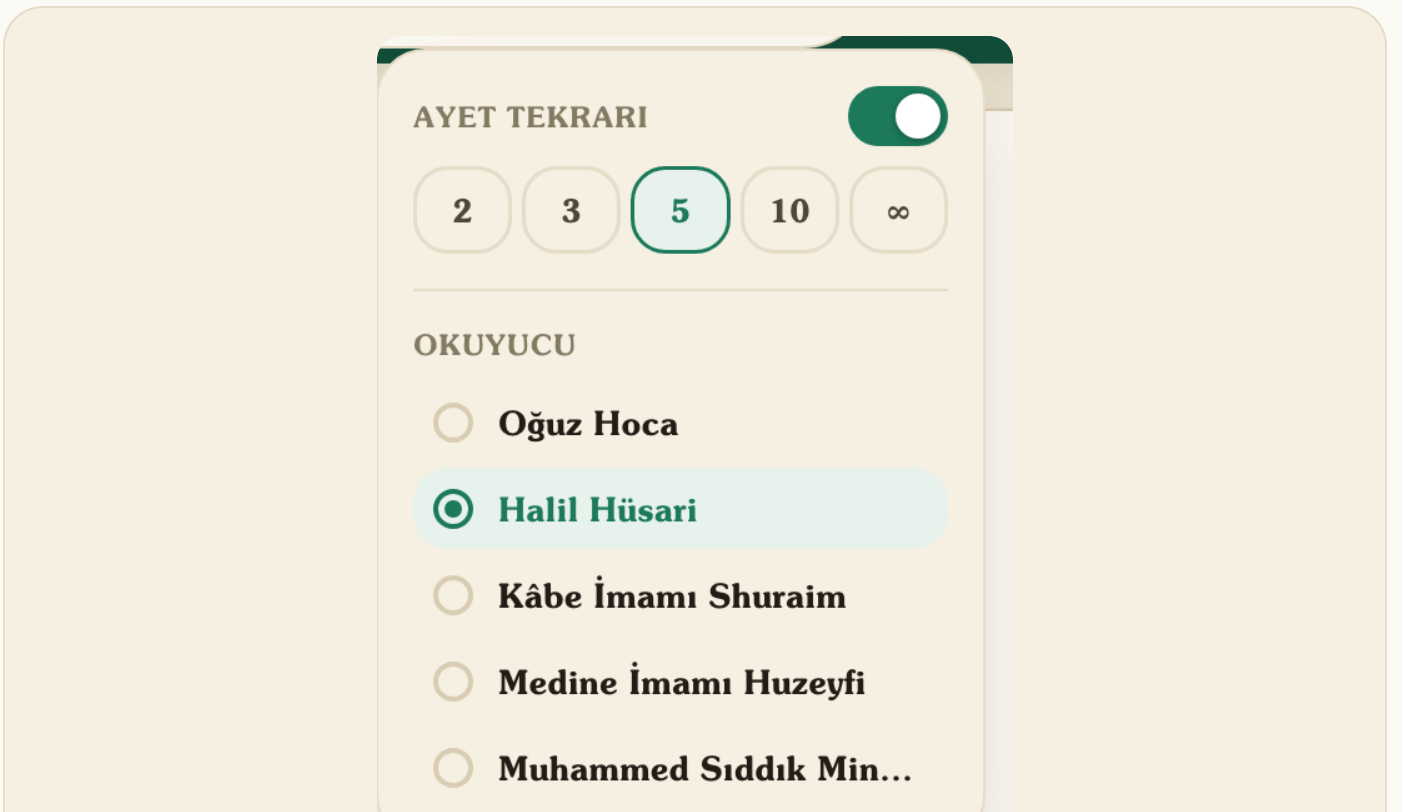

4 The reading screen

Write on the page with the pen, then press the green **send** button. If you leave without pressing it, your marks are lost.

Tap the microphone and read. Listen to yourself: if you don't like it, press the bin and record again. If you like it, send it with the green button.

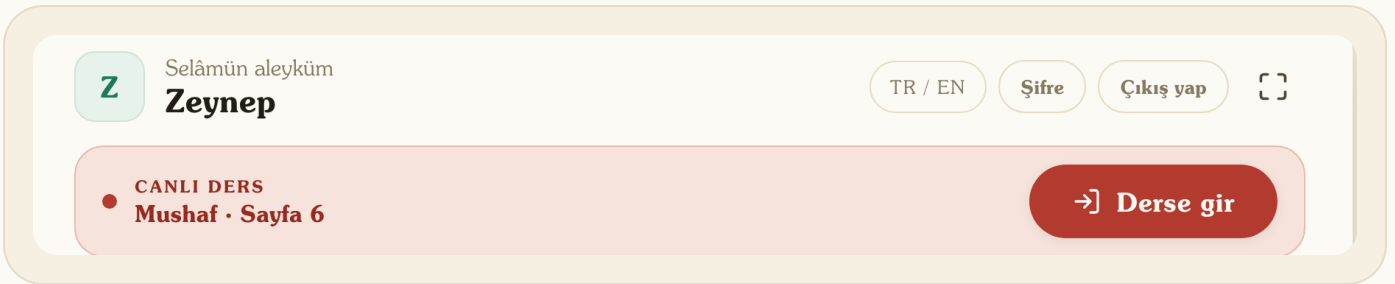

The gear lets you choose how many times each verse repeats and which reciter you hear.

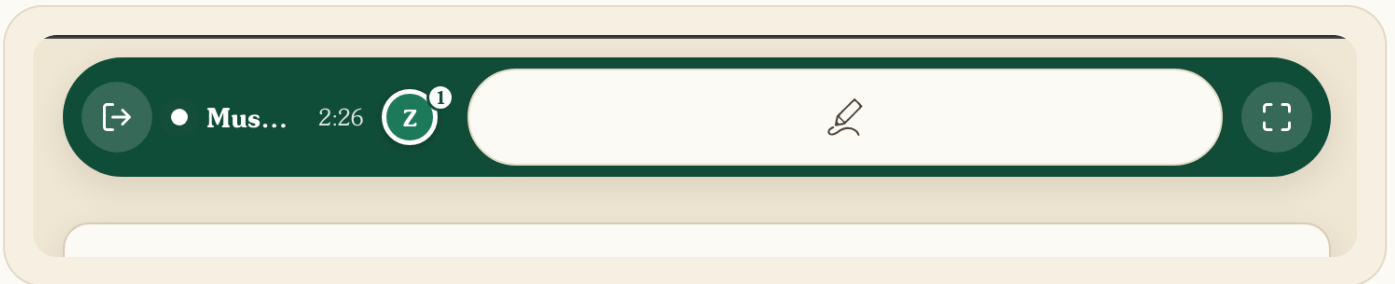

Live lesson

You and your teacher open the same page together and write on it together.

When the lesson starts, a red bar appears at the top of your home page. Tap **Join lesson**.

During the lesson a green bar stays at the top. Tap the pen icon in the middle to open the tools: highlighter, pen and eraser. The colour circle next to them lets you pick any colour, and the eraser removes what you drew.

If the pen does not work it is not broken — your teacher has not given permission yet, so wait your turn.

Your teacher turns the pages, so do not be surprised if the screen changes on its own.

When it is your turn, read out loud and without rushing.
